EDUCATION

Saint Cloud State University

B.S. in Computer Science, Minor in Psychology

St. Cloud, MN

2025 Graduate

Anoka-Ramsey Community College

Associate of Science in Computer Science

Coon Rapids, MN

Fall 2020 – May 2022

EXPERIENCE

Software Engineer – Cloud/Platform (LDP)

Jun. 2025 – Present

Ameriprise Financial Services, LLC

Minneapolis, MN · Hybrid

- Complete rotational assignments across Software Engineering, Data Engineering, Platform Engineering, Cloud Infrastructure, and AI/ML initiatives within Ameriprise Technology
- Develop and deploy cloud-native applications and Infrastructure as Code solutions using React, Python, Java, AWS (Aurora, RDS, Neptune, ElastiCache), Terraform, CloudFormation, Ansible, Docker, and Kubernetes (EKS), alongside data integration and ETL pipelines built with Informatica, SQL, ServiceNow, and enterprise monitoring platforms, delivering automation frameworks that improved database upgrade reliability and reduced manual operational effort
- Developing AI-powered agentic solutions using Amazon Bedrock, AWS Quick, AgentCore, and enterprise data integrations to automate technology operations and decision-making, while partnering with engineering, infrastructure, security, and architecture teams to deliver scalable, resilient, cost-effective cloud solutions

Software Engineering Technology Intern

May 2024 – Aug. 2024

Ameriprise Financial Services, LLC

Minneapolis, MN · Hybrid

- Developed cloud-native applications on AWS under Asset Wealth Technology, utilizing Python, PySpark, Java, AWS Lambda, SQL, Informatica, and Mainframe integrations to support brokerage operations
- Designed and exposed REST APIs to modernize data flow between legacy Mainframe systems and cloud services; participated in Agile ceremonies to deliver iterative improvements to trading-advisory platforms

Customer Technology Specialist – Platform Developer

Jan. 2023 – Jun. 2025

BI WORLDWIDE

Edina, MN · Hybrid

- Promoted from Project Administrator into a technical platform engineering role supporting enterprise employee engagement platforms
- Diagnosed and resolved front-end and back-end application issues using Oracle SQL Developer and PL/SQL, improving platform stability and client satisfaction
- Developed platform enhancements, UI modifications, and client-facing functionality across multiple Fortune 500 employee experience programs
- Partnered with business and technology teams to manage platform health, technical issue triage, and production support

TECHNICAL SKILLS

Languages: Python, Java, JavaScript/TypeScript, C/C++, SQL, PySpark, HTML/CSS

Cloud & IaC: AWS (Lambda, S3, Bedrock, IAM, EC2, RDS), Terraform, AWS CloudFormation, Ansible, Docker, GCP

AI & Agentic Development: Claude, AWS Bedrock AgentCore, S3 Vector Store, RAG, Agentic AI Pipelines, LLM Orchestration, Prompt Engineering

Data & Integration: Informatica, Power BI, Mainframe, Oracle SQL Developer, PL/SQL, REST APIs, Unix/Linux

Frameworks & Databases: React, Node.js, Next.js, Express, Tailwind CSS, Git, PostgreSQL, MySQL, MongoDB, Supabase

Leadership: Program Management, Agile/Scrum, Cross-functional Collaboration, Mentorship, Client Relations

PROJECTS

Acelio | *Flutter, AWS Bedrock, Lambda, Cognito, API Gateway, Supabase, EventBridge*

- Built a gamified personal finance iOS/Android app featuring AI coaching via Amazon Bedrock Claude 3 Haiku, with XP, streaks, and badges driven by a serverless EventBridge gamification engine
- Architected a fully serverless backend (Lambda + API Gateway + Cognito) with a Supabase PostgreSQL data layer; implemented CI/CD via GitHub Actions for automated Lambda deploys and Flutter builds
- Shipped full feature set: goal/budget/transaction management, Ace AI chat with daily tips, community feed, and guest experience

Abay Analytics | *Full-Stack Development, Community Entrepreneurship*

- Founded a community-focused venture building custom web and mobile applications for Ethiopian small business owners, delivering affordable digital tools for inventory, scheduling, and customer management
